

Cagamas concludes CMTN issuance

KUALA LUMPUR: Cagamas Bhd has concluded the issuance of its five-year conventional medium term notes (CMTN) amounting to RM1 billion, which was issued under its RM40 billion medium-term notes programme. The proceeds would be used to fund the purchase of mortgage loans from the financial system. The five-year conventional bond was priced at 4.09 per cent, which represented two basis points below the firm's issuance last week of its five-year sukuk.
